

Blue Ridge Landfill Conducting Community Odor Patrols

September 14, 2018

FRESNO, Texas (Sept. 14, 2018) – As a responsible landfill operator, we work diligently to control potential odor from Blue Ridge Landfill. As a good neighbor, we are also committed to helping detect and report any odor impacting our community. Therefore, our team conducts four odor patrols in the community at 15 separate locations five days a week. This May, the Blue Ridge Landfill team launched a hotline residents can call (281-668-9747), and added an online odor reporting option on our website at blueridgelandfill.com/contact-us/odor-report, where neighbors can report odor they detect so that we can investigate.

Additionally, to bolster these efforts, in mid-July, we hired an independent firm to conduct overnight odor patrols throughout Shadow Creek Ranch, seven days a week. This team has been trained to detect, measure and report odor so that it can be addressed. If detectable odor is traced to the Landfill, our team takes action to control it.

We remain committed to this community and focused on continuing to serve as a good neighbor. To learn more about Blue Ridge Landfill, or to schedule a tour, visit us online at blueridgelandfill.com
