

## Blue Ridge Landfill Supporting Local Restaurants With Employee Meal Program

April 24, 2020

**FRESNO, Texas. (Apr. 24, 2020)** – Blue Ridge Landfill is doing its part to support local businesses during these difficult times.

For the past several weeks, the Landfill has been providing meals for employees and their families. Meals are being sourced from local restaurants and small business customers throughout Pearland and the surrounding community.

“We are using local restaurants to provide our team with lunch,” said Clint Dickerson, division manager at Blue Ridge Landfill. “We also send every employee home with a family dinner pack once a week. It’s a way of showing our appreciation to our employees and to local businesses in our community.”

Dickerson said Blue Ridge has spent over \$15,000 with local restaurants in recent weeks, including Italiano’s, Lupe Tortilla, Jason’s Deli, and Marco’s Pizza, among others.

“We’re part of this community and, in these difficult times, we’re proud to do our part to support our customers and local businesses,” said Dickerson. “Our employees enjoy the meals and they take pride in doing their part to support their neighbors.”
